SPRINGFIELD MUTUAL
HEALTH INSURANCE COMPANY.
SPRINGFIELD, MASS.
GEO. H. NORMAN, Agent.

THIS institution is conducted on the mutual principle, so far as to admit the parties insured to an equal participation in the profits of the company.

It insures to male and female persons between the ages of fifteen and sixty years, a *weekly* income at the rate of 100 per cent. upon amounts *annually* deposited; in cases of disqualification for business by reason of sickness or accident. For instance, a person paying $5 a *year*, insures to himself $5 (or 100 per cent.) for every week's illness within that year. These benefits are independent of whatever dividends may annually accrue to the insured.

The rate of annual payments by the members are as follows:

$2 00	per Annum,	draws	$2 00	per week,
3 00	"	"	3 00	"
4 00	"	"	4 00	"
5 00	"	"	5 00	"
6 00	"	"	6 00	"
7 00	"	"	7 00	"
8 00	"	"	8 00	"

Persons desirous of providing against protracted sickness, and who will except the first week, will be taken 25 per cent less, viz:

$1 50	per Annum,	draws	$2 00	per week,
2 25	"	"	3 00	"
3 00	"	"	4 00	"
3 75	"	"	5 00	"
4 50	"	"	6 00	"
5 25	"	"	7 00	"
6 00	"	"	8 00	"

The main design of this company is to enable prudent and discreet persons of small means, to make provision while in health, by a trifling outlay, against the aggravated sufferings that inevitably invade a sick bed, in seasons of pecuniary privation and of inability to labor. A vast amount of human wretchedness has been prevented or mitigated, within the present generation, by the establishment, in Europe, of similar provident institutions; and within a short period, this system of Health Insurance has been introduced into our own country, with results, thus far, equally beneficial to all whose relief it contemplates—more especially to those who toil daily for their daily bread, and to whom any interruption by sickness becomes a serious and distressing calamity.

By this system, also, one person may insure the health of another—a parent that of a child, or a child that of a parent—an employer that of a workman, or of an apprentice, &c. Thus, those who are able, by a small immediate investment, may relieve themselves from the hazard of incurring heavy burthens, inflicted involuntarily by those who might otherwise become dependants upon them for continued care and support.

While the most humane and benevolent dispositions of mankind are subserved by every association of this description, its beneficiaries are exempted from being placed in the degraded condition of recipients of the bounty of others. For, by the contract into which they enter, they purchase and fairly earn all the benefits which they may demand, as a matter of just and legal right; and, if it so please Providence that they escape the affliction against which they have reasonably provided, the satisfactory reflection is left, that the price of their own immunity has been applied to the comfort and succor of their less fortunate fellow beings.

It is presumed that no extended argument can be required to recommend the objects of this Company to public consideration. A perusal of the Rules and Regulations adopted by the Directors, which may be had at my office, will afford an ample insight into the principles of the Institution, and of its modes of operation.

WALTER SIMONSON,

Read the following from an eminent physician.

The undersigned being acquainted with some of the ingredients of Hutchings' Vegetable Dyspepsia Bitters, and having used it for some time in his practice with every desired effect, he recommends this medicine from the certainty of its effect, and gives it a preference over all preparations in medicine for that distressing complaint, Dyspepsia.

MAHOGANY BURIAL CASES.
The subscriber has purchased the right to make the Patent Metallic Burial Cases for the State of Rhode Island; and he has just received a large supply of the different sizes and patterns. These Cases will fast preserve remains for all future time without coffin; but we do assert, that no coffin can be kept in them for weeks without decomposition being observable; nor with any offensive odor excepting in grounds which are wet, they will be found durable enough for all this age to see the purposes for which they are often made to rest out the winter, if it is necessary at any time, even fifty years after interment, to remove the remains, it can be done without difficulty—for the Cases themselves will last as long as time itself.

Every description of wood coffins constantly on hand and made to order.

PORTSMOUTH.

THE Whigs of Portsmouth are requested to meet at the TOWN HALL, on Saturday evening next, March 27th, at 7 o'clock, for the purpose of nominating candidates for Senator and Representative at the ensuing election; and also to make the necessary arrangements to secure a full vote for the Whig ticket at the April election. A full and punctual attendance is requested.

m22

☞ We are glad to percieve that the right spirit prevails among the Whigs of this county; they are fully sensible of the importance of the election, and they have commenced working with commendable energy and perseverance. If the same good feeling continues, and the same determination is manifested, until after the election,—and we have every reason to believe that such will be the case,—Newport County will give one of her old-fashioned rousing majorities in favor of the Whig candidates, on the 7th of April. There are twenty members of the Assembly from this County, which is just one-fifth of that body; last year there were only *three* locofocos in the number, and it will not be increased this year. If the other Counties will only do one half as well as this county, we shall have a good wholesome working majority in the Assembly.

The result of this election will not simply decide who shall fill the offices of honor and profit during the year,—but graver questions are at issue, more important matters are involved, the decision of which will vitally affect the institutions and the people of this State, for long years to come. During the last year, the locofocos have moved, as far as they dared, in revolutionising our political institutions,—institutions which were maturely established by the best and ablest men of the State, after the rebellion of 1842 had been subdued.—The locofocos also showed what they would have done, had they possessed the power. William Beach Lawrence introduced a feature in the new Election Law, giving men the liberty to go to the polls, on the day of election, and vote by simply swearing that they had a right to vote,—this shows what he would have done, if he could; it was a bold and fatal blow at the Constitution, and an annihilation of all the guards and barriers which the assembled wisdom of the State had thrown around the ballot box, for the purpose of preserving the purity of elections. Lawrence is striving for political preferment; he has no deep-rooted and prevailing Rhode Island feelings in his heart,—he will resort to any ultra means for the purpose of benefitting himself and securing his own advancement. Will the honest men of Rhode Island vote for such a man, in preference to Samuel G. Arnold, who is descended from an old and long-tried Rhode Island family—a family which has always been identified with Rhode Island history and Rhode Island institutions, and all that would redown to the honor, and glory and welfare of Rhode Island?

This is no trifling matter. If the locofocos can carry the State this year, and secure a majority in both branches of the Assembly, they will then attack the Constitution, and they will incorporate features into it which will demolish the last remnants of Rhode Islandism, and so invest it with the spirit of all that is monstrous, horrible and dangerous in New York locofocoism, that the people of this State will hereafter mourn perpetually; the power will be wrested from the hands of Rhode Island men and the controlling influence, in all our affairs, will be placed at the disposal of those men who will seek a temporary refuge in this State, for the purpose of ascending the ladder of political fame.

We appeal to those Whigs who are opposed to the Maine Law, to be cautious how they hastily determine to vote for Lawrence because he opposed that law. An experiment of this kind will be hazardous in the extreme,—confidence thus reposed will ultimate most disastrously in other and greater questions of a State and general character. Vote for Samuel G. Arnold; he is a Rhode Island man—committed to no factions—pledged to no cliques or sectional interests; free and unfettered, he will discharge the duties of his office in a bold and honorable manner, so as not to infringe the rights of any, and, at the same time, so as to guarantee to all the rights and immunities which the laws of the land bestow upon them.

☞ Time, history, experience and observation clearly teach that all which pertains to greatness is not necessarily immortal; and that some of the most important events and incidents in the lives of those whose names, fame and writings are handed down to remote generations, are not unfrequently merged in that oblivious sea of doubt which has provokingly embosomed so much that is important and valuable in the history of the lives of eminent men on earth.

Seven famous cities claim the honor of having been the birth place of the renowned and immortal Grecian Epic poet, Homer; and although hundreds of volumes, thousands of essays and millions of shorter articles have been written upon the subject,—notwithstanding the most profound scholastic knowledge and wisdom have been laboriously employed in the matter,—and notwithstanding the most extraordinary efforts which have been made to ascertain where the great poet was born, the truth of this matter still remains a profound secret, and, in all human probability, this vexed question can never be satisfactorily settled, and no city or place can enmolestedly and positively wear its proud honor, of having been the birth-place of the immortal Homer.

After many centuries have quietly rolled away, and their events and their victims are securely entombed in the great sepulchre of the past, a still mightier and more mysterious and more important question will be agitated among those who shall then occupy our places on the stage of action. It will be this,—*Where was the residence and domicile of his Honor William Beach Lawrence Lieutenant Governor of the State of Rhode Island and Providence Plantations?* New Yorkers will contend that it was at 498 Broadway; Newporters will claim that it was at Ochre Point; and the then polished posterity of the once rude and uncivilized descendants of Roger Williams will strenuously declare that it was at 176 South Main street, in Providence. The letters of Mr. Smith will be produced, the decision of our Town Council will be cited, with the oath of the great departed, in March 1851, when he swore that for more than a year he had resided in Newport,—and this will apparently settle the matter most conclusively, and place it beyond all cavil and dispute.—But just as public opinion shall then have decided the matter, and awarded the honor to old Newport,—some musty antiquarian, whose life has been spent amid the ponderous tomes of long departed generations, will produce the records of the office of the Surrogate of New York, and there will be found written, in unmistakable characters which shall have been wondrously preserved, that in July, 1850, just *eight months* previous to the time when the *great statesman* swore that he resided in Newport, he took a solemn oath that he resided at 498 Broadway, New York. Then there will be wild rejoicing among the far-removed descendants of the honored Knickerbocker,—and public opinion will again quiver and tremble. Again will the wise men gather in council, and again will the press be called into requisition to throw more light, if possible, upon this perplexing yet all-important question.

Thus our readers will percieve that in ages hence, when we have all passed away, and are forgotten, w'l the *greater lights* of this age still live. As a last resort, in order to settle the question of residence, some accomplished clairvoyant, some astute medium of the spirit-rappers, or some profound Dr. Roback, will appeal to the spirits of Jeremy Bentham, La Fayettee, Madison, Jefferson, those of distinguished men of both parties who are now candidates for the Presidency, and whom the great Lawrence entertained at Ochre Point,—and, lastly, to that of his present excellency, Gov. Allen, to know, in mercy, *where* was the domicile and residence of the great statesman, William Beach Lawrence. At that remote day, history will give no evidence that such men as Webster, Clay and Calhoun ever lived; but bright and luminously amid all the wrecks of the past and the wild ravages of time, the name of William Beach Lawrence will glow like the eyes of the bird of wisdom amid Numidian darkness,—and the still lingering *spirits* of Tammany Hall will proclaim his legal acumen, and his political generosity.

Then, and in that enlightened age, some hundreds of years hence, shall seven stupendous questions agitate the world, even as seven mighty cities claim to have been the birth-place of Homer, in this early age of the world. They are these —

Where was Homer born?

Did Camphene and Burning Fluid explode, in the 19th century?

Who was the original Mrs. Partington?

Who built the old Stone Mill at Newport, R. I., and for what was it used?

Did Saltpetre explode, in the 19th century.

Who struck Billy Patterson?

Where was the residence and domicile of WILLIAM BEACH LAWRENCE?

Each of these questions will be equally important, and yet no satisfactory revelation will be made, which will dispel the mysterious cloud which envelopes them in the impenetrable darkness of oblivion. And this is human greatness! It will not then be said of William Beach Lawrence that,

"When he lived, he lived *in clover*,
And when he died, he died all over."

PAY YOUR REGISTRY TAX.

There is but little time left now, in which you can pay your Registry Tax. Let every Whig remember this, and go to the Collector's office, and pay his dollar, without delay; this will entitle you to vote at the Spring election, and the Presidential election, and at all other elections which may occur during the year. If you neglect this duty, you cannot have the privilege of voting at any election during the year, however important it may be, or however deep your interest may be therein. It is a small amount, and every Whig can afford to pay the dollar, especially when the benefits resulting therefrom are so great and important.

BY TELEGRAPH.

WASHINGTON, March 17.

As the public prints have recently teemed with speculations in regard to some imaginary "Japanese Expedition," alleged to be now fitting out under orders from the Navy Department, and as the rumors have breathed a spirit of aggressive war, the public should know they have no solid foundation, beyond the fact that the East India Squadron is to be renewed and perhaps to be somewhat augumented in force. It will consist of seven vessels, including a store-ship, four of them being steamers. Part of the squadron sailed nearly a year ago.

Besides the general objects of guardianship over our commerce and interests, Com. Perry will doubtless be instructed to make arrangements for the extension of commercial intercourse with Japan, and for the better protection of the lives of shipwrecked American sailors on that coast, who have in many instances been barbarously treated. It is not improbable that reclamations may be made for injuries and losses sustained by citizens of the United States. Japan has no existing treaty with any government except that of Holland; and the rumor which has been circulated at home and abroad, of an intention on the part of the United States, to enforce conditions with military power, which will undoubtedly reach Japan before the commanding officer of the squadron can arrive there, and of course be greatly exaggerated, may operate prejudicially to the wise purposes of the efficient head of the Navy Department. Commodore Perry will proceed to this destination as soon as the Mississippi steamer can be prepared for sea, which will probably be some time during the month of April.

A Singular Vagrant.—A woman named Anna Small, was recently convicted at St. Louis of being a vagrant, and required to give $500 bail for her future good behaviour. She immediately handed to the court $500 in gold, as colateral security for her behaviour, and $50 for a fine which had been imposed upon her.

Fifty barrels of alcohol, on the way from Boston to St John in the St. Helena, were seized while the vessel touched at Eastport. The case was tried at Machias; the jury found that the alcohol was not intended for sale at Eastport, and Judge Hathaway ordered that it be restored to the master of the St. Helena.

☞ It is said the District Attorney of New York, Mr. Blunt, has brought a process against the American Art Union lottery, for the purpose of confiscating all their property to the State. The managers have employed Mr. Charles O'Connor as their counsel.

PUBLIC VIRTUE.—The following sentence from a speech made by Daniel Webster many years ago on the subject of Executive patronage, should be inscribed in letters of gold on the halls of our National and State Legislature:

"The principle of Republican Governments, we are taught, is public virtue; and whatever tends either to corrupt this principle, to debase it, or to weaken its force, tends, in the same degree, to the final overthrow of such governments."

A FRENCHMAN'S ATTEMPT AT SUICIDE.—A Frenchman lately in London, disgusted with life, sought to rid himself of it by the following extraordinary means. Having withdrawn the yolk of an egg from the shell, he had filled the latter with gunpowder, and placing it in his mouth had ignited the same with a fuzee. His mouth and throat were greatly burned, but otherwise he escaped material injury.

The Liverpool Courier, in an article on the anti-corn law league, says—although Mr. Cobden and his myrmidons are actively at work—yet it will be to no purpose; that the flattering prospects are held out to the people by them in 1845 have not been realized. That the Continental ports are crying aloud for protection, and that America derives the greater portion of her revenue from import duties, expressly acting to the exclusion of British industry.

The Courier also speaks most commendatory of the new Ministry, and says that they for the short time they have been in office, they have done exceedingly well.

It is rumored that the President of the Republic contemplates abolishing or modifying the army conscription.

DEATH IS THE TERMINATION,

But too often, of what, in its inception, was lightly treated, and fatally neglected as a *common cold*. The snow-ball does not increase faster by rolling, than does DANGER from an *unchecked Cough or Cold*. When inflammation once seizes upon the delicate tissue of the Lungs, the progress of fire is scarcely swifter or more fatal than that of *Pulmonary Disease*, through its various stages, to its terminus, Death! Yet it may be arrested in all cases by a prompt resort to *Dr. Rogers' Syrup of Liverwort, Tar and Canchalagua*. To this vital truth, many among the first men in the land have appended their attesting signatures.—Read their testimony in the pamphlet in the hands of Agents.

R. R. R.

The triple R's we perceive, in the majority of our exchanges, stands forth in bold relief, it has carried hope to the hearts of thousands, it has performed the most remarkable cures on record. It has raised the dying invalid from a bed of misery to the scenes of health and pleasure, in a few days. It has put flesh upon the wasted form and new life to the worn-out trunk. It will stop the most cruel pangs of pain in an instant, and cure the most tormenting Toothache in a second—the most acute Rheumatic pains in a few minutes—Diarrhœa, Dysentery, Neuralgia, Sick Headache, and all other nervous, bilious or rheumatic pains almost instantly. It is magic-like in its effects. In England, Russia, France, Austria, the Chief Physicians to their Majesties have been staggered at its remarkable efficacy and electrical speed, in stopping pain and curing its cause. In all cases ask for RADWAY'S READY RELIEF. Sold by m16. R. R. HAZARD & CO.

A WORD TO THE WISE.—No medicine is so cheap, so agreeable to take, so safe in all cases and so certain to cure all diseases arising from an impure state of the Blood as *Morse's Compound, Syrup of Yellow Dock Root*. TRICOPHEROUS!

Let those now use
Who never used before,
And those who always used
Now use the more.

REDUCED FROM ONE DOLLA TO FIFTY CENTS PER BOTTLE!

THIS justly celebrated and widely known compound which for sixteen years has met with distinguished success wherever it has been introduced, is now reduced to such a low price, as will enable it to be within the reach of all, as it is the cheapest and best article now in use. Its curative properties are almost incredible. Scald Head, Salt Rheum, stings of insects, and all the numerous train of disagreeable cutaneous eruptions disappearing as if by magic,

ITS STRENGTHENING AND STIMULATING qualities are unrivalled, rousing into action the nerves and blood Vessels which carry nutriment, imparting health to the greatest of nature's adornments (a beautiful head of hair) to the latest period of life.

FOR ERADICATING DANDRIFF it is unsurpassed. Cleansing the skin completely of every impurity, leaving the hair neither greasy, or dry, but moist soft and silky. It is superior to oil to dress the hair, as it does not soil the hat, or head dress and keeps longer moist.

THE TRICOPHEROUS has gradually risen in favor with the public, by its own merits and not like the puffed and ephemeral compositions existing to day, and swallowed in oblivion to morrow, until it has become one of the staples of life, and looked for by all as one of the necessaries of the toilet and medicine chest.

The known popularity of the Tricopherous has occasioned many spurious articles, bearing outwardly, the same name and character. Ladies and Gentlemen purchasing must therefore be careful to ask for CLIREHUGH'S TRICOPHEROUS.

"A LITTLE KNOWLEDGE IS A DANGEROUS THING."

THIS saying has but a partial application.—A very little knowledge of the physiology of the hair teaches that want of care deprives many of that most becoming ornament to the person. Those who would desire to preserve their heads from baldness, cure thinness on the scalp, prevent discoloration, and secure a glossiness and softness of texture, should use Bogle's Hyperion Fluid.

Many look upon the process of shaving as one which requires a merely mechanical attention to accomplish perfectly. It is not so. The conditions which furnish the speediest and easiest accomplishment are a healthy state of the skin, and a suitable lather to preserve its soundness.—Bogle's Amole is the most approved article for softening and smoothing the skin, and imparting to it an elasticity inconsistent with any chance of irritation, or eruptions which follow it. Sold by Wm. Bogle's Agents.

TO THE PUBLIC.

BEING a Manufacturer and Dealer in Burning Fluid and Camphene, and in order to lay at facts fairly before the Public, I take the present opportunity of referring to the many *Dreadful Accidents* from Explosion of Camphene and Fluid Lamps and Cans, which are going the rounds in all the city Newspapers, and in explanation of the accident in *Salem*, which happened a few days ago, I copy the following from a Boston paper, which gives the following explanation of the accident:—

"It is stated that the can contained, by conjecture, about a quart of Fluid, and was placed on a shelf, at a distance of several feet from the stove in which the fire was burning. If these are facts no explosion could ever have taken place without the introduction of fire and the atmospheric air into the Can at the same instant; it is currently reported in Salem that the unfortunate victim was in the habit, at times, of pouring or sprinkling the Fluid upon the Wood in the Stove, to facilitate the kindling of the fire,—and as this may have been done in the present instance and in the absence of all proof to the contrary, (the Mother being in an adjoining room) we have a solution of the matter."

Now by a careful examination into all accidents of this nature, you will find them caused altogether by carelessness, and, in fact, since the introduction of Camphene and Burning Fluid into this place, all accidents that have happened have been clearly proved to be the grossest carelessness, on the part of the consumers, either by filling the Lamps while burning, or leaving the Wicks out of one of the tubes, as in the case of the last accident which happened here.

Camphene and Fluid are a safe, clean and cheap article of Light; and with proper Lamps and ordinary care, are perfectly safe, and will never explode, unless they are brought in contact with fire.

CODFISH and Mackerel, at YOUNG'S

Dr. Marchisi's Uterine Catholicon.

THE UNDERSIGNED HAVING BECOME AGENTS FOR THIS INVALUABLE MEDICINE, would respectfully invite the attention of the afflicted to the gratifying evidence that has attended its use wherever introduced, and its happy adaptation to the cure of the distressing diseases for which it is offered.

This CATHOLICON is in truth one of the GREATEST MEDICAL DISCOVERIES OF THE AGE, and is destined to become identified with the health and happiness of

FEMALES.

This declaration is based on the fact that it will cure more than nine-tenths of all cases of every prevalent disease, known as

FEMALE COMPLAINTS,

and which have heretofore resisted the skill and exertions of the most accomplished Physicians of all countries, to a degree is found that of those everyday other maladies to which the human family is heir. It has already received the approbation and liberal patronage of very many prominent members of the Medical Faculty in the United States, willing to shield the truth, and having due regard for the welfare of their patients, and in at every way worthy the confidence of the afflicted as A SUCCESSFUL, SAFE and CHEAP REMEDY. Of this, additional proof will be found in the pamphlet, to which the attention of Ladies and Practitioners is respectfully invited.

This medicine has never been introduced by empty puffs and misspelled notices, nor is it intended that its present popularity shall be sustained by any medium but its merits and the approbation of the public. The CATHOLICON is not a "cure-all," but is intended expressly for those complaints incidental to the respectable female whether married or single—PROLAPSUS UTERI, FLUOR ALBUS, CHRONIC INFLAMMATION AND ULCERATION OF THE UTERUS, ACCIDENTAL HEMORRHAGE, PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe, or of how long standing.

☞ Pamphlets can be had gratis, of the agents.

DR. A. C. Barry's Tricopherons, or Medicated Compound

THE efficiency of this justly celebrated Lotion for invigorating, beautifying and imparting a glossy and silken softness to the hair, is now so widely known and acknowledged, that it is granted by its merits a reputation which is not for a day, but for all time. It is the province of science to subdue and to entail those physical evils which refined civilization has brought in its train, for nothing is more unnatural and right hats would be confined to grocery of other intelligence exist, with the result of unhappy victims to be troubled with bald heads and grey hairs, to say nothing of the various cutaneous diseases to which the head is subjected. It was to relieve these evils that Professor Barry introduced his invaluable remedy, and among the thousand and one who have tried his competitors, he now stands almost in that pedestal of success, in view of Barry's Tricopherons, and sustained by the favorable universal patronage of a discerning and intelligent public. For restoring the hair to its original growth, or preventing it from falling out, this compound has been pronounced by all medical men to be a sure remedy. For eradicating scurf, dandruff, and curing diseases of the skin, glands, muscles, rings and bruises, the Tricopherons will always be found a safe, speedy, and infallible cure; and as long as

"Fair tresses man's imperial race ensnare,
And beauty draws us with a single hair,"

will Barry's Tricopherons be esteemed to the toilet of every lady and gentleman who desire to give a soft, glossy and luxuriant appearance to the natural drapery of nature's throne. Sold in large bottles, price 25 cents, at the principal office, No. 137 Broadway, New York; and sold by the principal merchants and druggists throughout the United States and Canadas, Mexico, West Indies, Great Britain, France, and in R. 64 DOSES

IN EACH BOTTLE—One Tablespoonful a dose—Forty Doses a Day—Some bottles containing 64 Doses last Twenty-One Days.

Price $1.00 per Bottle, or Six Bottles for $5.00.

BRANDT'S PURIFYING EXTRACT

Is now put up in QUART BOTTLES, and is often twice medical strength and efficacy as that in the small bottles.

This great superiority of THIS PURIFIER over SARSAPARILLA and all other similar medicines, may in some measure be understood from the following facts: FIRST—It contains not only Sarsaparilla, but portions of the medicating, or PURIFYING ESSENCE of

Sarsaparilla, Yellow Dock,

Cherry and Sassafras Barks,

more strongly, more powerfully concentrated, and larger quantities of each of these purifiers in each bottle of it than can be found in any bottle of medicine, called Extract of Sarsaparilla.

SECONDLY—because This Purifier also possesses the most powerful efficacy and healthy virtues of several other

Roots, Barks, and Vegetables,

the PURIFYING properties of which are greatly SUPERIOR to Sarsaparilla, and when these are compounded with Sarsaparilla, Yellow Dock, Cherry, and Sassafras, they make the medicine the most certain and active Purifier of the Blood in the world. So true is this, that to have every desired medical effect, the DOSE IS

Only One Tablespoonful, *three times a Day.*

But it is not so with Extract of Sarsaparilla, for in consequence of its medicines (in large bottles) being so much weakened and reduced the DOSE of Sarsaparilla has to be Two, Three, or More Tablespoonfuls—Three, Four, or More times a Day, to have any medical effect; and as a bottle of sarsaparilla only holds sixty-four spoonfuls, therefore, as many spoonfuls at a dose, and so many doses a day, will use up a bottle of it in

Four, Five, or Six Days,

which show that a bottle of BRANDT'S Purifier, will last from Twelve to Sixteen Days longer than a bottle of Sarsaparilla; and if the daily medical efficacy (in small doses) be in PURIFYING and HEALING as the daily large doses of Sarsaparilla, then it PROVES that ONE bottle of this PURIFIER is worth *Three, Four,* or *Five* times more than a bottle of Sarsaparilla.

The above comparison does not yet show the *great difference* in value between the *medical efficacy* of BRANDT'S PURIFIER and SARSAPARILLA. This will appear by the certificates of cures in *Brandt's Pamphlet*, showing that

ONE BOTTLE OF BRANDT'S PURIFIER

has more efficacy, and *cures more inveterate blood* diseases, than

TEN Bottles of Sarsaparilla.

If, then, ONE BOTTLE of PURIFIER sells for ONE DOLLAR, *One Bottle of Sarsaparilla* should sell for TEN CENTS.

CANCEROUS SCROFULA.

Mr. J. B. HASKIN of *Ross*, Oneida Co. N. Y., who had *suffered* of Scrofula in 1838, swore to the *facts* as related below in an action in the SUPREME COURT in the *City of New York*, on the 20th of *December*, 1843, under the following circumstances:—

A person in the *City of New York* had manufactured and retailed a *spurious* article of medicine, calling it BRANDT'S INDIAN MEDICINE, *in imitation of the genuine medicine*. He was prosecuted to obtain damages, in the Supreme Court of the City of New York, and the case was *referred by the Court* to J. S. Bosworth, Esq., an eminent Lawyer, as *Referee* to take the testimony. The defendant pleaded in *mitigation of damages*, that the Proprietors of BRANDT'S Medicine had in *some cases* published FALSE STATEMENTS of *cures*, and thus had constituted a *fraud* on the public; and therefore, was not entitled to damages. The case of Mr. *Haskin* was selected as *being false*, and Haskin was sworn as a witness in regard to the FACTS as published, and *his testimony* MORE THAN SUSTAINED *the publication*.

Mr. HASKIN said, I am well acquainted with Brandt's Purifying Extract. I have used it for *Scrofula*. About three years ago, I was very badly affected by it. I was attended by several doctors—they *gave me up*. I then said I would use Brandt's Purifier—but no medicine could take me. In consequence of such information, for my friends before I used *Brandt's Purifier*, I took no medicine. When I commenced using the *Purifier* I had a swelling on my back as big as a bushel—the size of my head to my heels; my neck was as large as my head, and so sore I could not turn it. I used *Brandt's Purifier* in small bottles, the *first* bottle lasted *eleven days*. I was so weak I only took *one-third* of a spoonful at a time; I felt little or no strength I used it, so as to enable me to get out of bed; the sores I had on my back, the size of a pea, which are described above, and I healed up one, so that I was able to attend to my affairs to the disposal of Blood & Brandt, in Exeter Centre, where I got the third bottle; this last bottle HEALED ALL MY SORES. I believe myself I was cured of *cancerous humor*, which was *dripping* large as the end of my little finger. I used *Six Bottles* of Brandt's Purifier in all. I used *Six Bottles more*, which make PERFECT CURE, as described to *good health*. *FOR FULL PARTICULARS, see* BRANDT'S PAMPHLETS.

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Perrysburg, Cuyahoga, Middleton county, Ohio*, wrote to us, October 2, 1843, that he had a cure of CONSUMPTION which the use of Brandt's INDIAN PULMONARY BALSAM had effected in Mr. WILLIAM CROCKET, of the same village. He said Mr. Crocket had sought relief from the best physicians and most noted medicines, but found none, for the fatal fiend of consumption was fastening upon him. Crocket had received from a bed of dangerous and severe sickness, which all the doctors had given up as incurable. They said she MUST DIE with a *Consumption of the Lungs*. After all had pronounced the case HOPELESS, she commenced taking BRANDT'S BALSAM—and now she is well!

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS, in children or grown persons cured without any failure whatever. Also—

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by that child-destroying complaint, when dealing in warm weather—Cholera Infantum, or what is called SUMMER COMPLAINT—if "BRANDT'S PULMONARY BALSAM" be administered to the child. It should, however, in such cases, be used in *twice as large portions* as the directions on each bottle prescribe, until the complaint is checked.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, $150,000.

Safety—Stability—Economy.

THIS long established and well known company having organized a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations for the payment of losses upon life assurance only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies; and as low as is consistent with ultimate safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those vexatious contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 70, 65, 60, 55, or 50, at his option; in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

JOHN H. SMITH'S RENOVATING OINTMENT AND HORSE RENOVATING POWDERS.—The author of our existence has caused to grow spontaneously, throughout the world, such vegetable properties as will at once cure, when properly applied, all curable diseases. The proprietor of these truly valuable Medicines might fill a volume with Certificates and Testimonials in favor of his articles; but, considering such puffs wholly useless, since they are so readily manufactured, and made use of to such an extent to palm off some useless trash upon the public, I shall, therefore, state at once, the various diseases that can be speedily cured by these Invaluable Horse Renovating Powders, viz:—Glanders, Hidebound, and Horse Distemper. It also carries of all gross humors, and purifies the blood. It is also a safe and certain cure for the HEAVES; it will also cleanse, at once, the stomach and move from bots, worms, &c., and again restore the stomach and bowels to healthy action.

SMITH'S RENOVATING OINTMENT is an invaluable remedy for horses, in the cure of the following diseases: Fresh Wounds, Galls of all kinds, Spavins, Bruises, Ringbones, Poll Evil, Windgalls, Sprains, Sweeny, Fistula, Strains, Lameness, Foundered Feet, Cracks, and Scratches.

The above articles are to be had in most of the Cities and principal Villages throughout the United States, and the Canadas.

Price, 25 cents per box for the Ointment; 50 cents for the Horse Renovating Powders.

ONLY $25

Begin FOR A HOMESTEAD.

60 FARMS worth over $10,000, and 6,000 Lots, to be distributed among 5000 Subscribers.

TO supply the demand for the Lots and Farms, I have laid out another tract, at LAKELAND, adjoining the Long Island Railroad and Island already sold at Hempstead, to be of the same size, and disposed of and divided among the purchasers in the same manner as those recently sold there, with 50 Farms instead of 22.

I have been induced to do this from the great number of persons wishing to purchase these Lots and Farms, as the improvements in that part of the Island are constantly increasing, and large numbers of persons have now become established in those lands. This additional tract is situated in those lands. This additional tract is in the other, and at the rate every respect equal to the other, and at the rate they are now being taken they will all be sold in a few weeks. About 600 shares are now subscribed.

Each subscriber is entitled to 8 Lots, 25 by 100 feet, lying together, or a FARM of from 4 to 20 acres, lying together, or a FARM of from 4 to 20 acres. The shares are limited at $25—payable, $5 when subscribed for, $5 on or before the day of distribution, and the balance in monthly instalments of $3.

The lots are situated in the Village of LAKELAND in the Long Island Railroad, County of Suffolk, and 48 miles from the city of New York, where handsome buildings are erected, and the Railroad Company contemplate making a large depot for the termination of the early and late trains between that place and Brooklyn. It is one of the healthiest places in the United States, and within one mile of Ronkonkoma Lake, a beautiful sheet of water about three miles in circumference, of singular transparency, and of great depth, with an abundance of fish. The Village is but 4 miles distant from the great South Bay, which is 5 miles wide and 40 miles long, abundantly supplied with oysters, clams, and fish of various kinds.

These lands will produce as much per acre, with the same cultivation, as any land within fifty miles of the city of New York.

Several gentlemen of the first respectability who have lately visited Lakeland and examined the crops then growing there, declare that the crops then growing there, declare that the wheat, rye, corn, potatoes and garden vegetables, are equal to any they have seen in any part of the country, proving conclusively that the soil is capable of producing, and that in the highest perfection, all that the agriculturist can wish or desire.

Wheat of the same quality, which grows here luxuriantly, was raised by Mr. Samuel Thompson, of Setauket, last year (about 8 miles, from his place) who received for the product of a little more than two acres, $100.

Lakeland Station is located on the borders of the Long Island Railroad, whence cars runs several times a day to Brooklyn and New York.—The surface of the land is smooth and level, and the surrounding country is perfectly healthy, and within a few miles of the place, highly cultivated and valuable, having been settled for more than a hundred and fifty years, and where similar lands sell at from $60 to $200 per acre.

Apply to CHAS. WOOD, Stationer, 171 John street, near Pearl, N. Y., who will receive remittances and forward receipts therefor by return of mail. They will also gratuitously furnish maps and pamphlets of the property, and cheerfully give such other information as may be desired.

Unless desire to say that I have good FARMING LANDS West of my Village Lands, which I will sell in five acre lots and upwards, at $20 per acre.—These lands are well situated for farming and gardening purposes, in every respect; and having the advantage and privilege of Railroad, when cleared and cultivated, they will be equal, when cleared and cultivated, they will be equal to any land on the Island; and equal to that which, in the vicinity of all the old villages and settlements of Long Island, sells for $50 to $200 per acre.

CHAS. WOOD,

117 John street, N. Y.
